

Built on patented, certified processes and technology, TransPerfect Medical Device Solutions offers the first portfolio of integrated services specifically designed to meet the needs of global device manufacturers.

VALIDATED WORKFLOW AUTOMATION

Automate the entire translation process—including submission, tracking, review, and metrics—using advanced workflow technology. Provide secure, centralized access to multiple suppliers, departments, and divisions while maintaining full control of terminology and spend.

VALIDATED TRANSLATION REVIEW TECHNOLOGY

Ensure quality and simplify translation reviews with Notified Body-endorsed grading and scoring, online terminology management, workflow automation, and a complete audit trail.

VALIDATED XML PUBLISHING SYSTEMS

Reduce translation costs and turnaround times by up to 70%. Future-proof clinical and labeling content using structured and tagged XML content management technology and strategies.

AUTOMATED WEBSITE LOCALIZATION

Launch your multilingual website in as little as 30 days with virtually no IT overhead while customizing user experience for regional compliance.

END-TO-END LABELING AUTOMATION

Maximize labeling efficiency and cost savings by combining authoring, content management, and translation into one integrated process.

75%

Reduction in Content Costs with Automated Publishing & Translation Processes

75%

Improved Translation Quality & Mitigated Recall Risk with XML Content Management

50%

Decrease in Labeling Turnaround by Eliminating In-Country Review

30%

Reduction in Software Development Risk & Testing Costs with Validated Tools & Process Consulting
