*"We recently switched to a cloud-based e-learning software and I have been very impressed with the adaptability of your team. They have learned the software quickly and continue to provide us with quality translations. Additionally, **in nearly three years they have never once missed a deadline**, even delivering the most recent courses 3 weeks early. Thank you for your continued support and the **amazing changes that have made the translation process faster and more affordable** for our business units, it is greatly appreciated!"*

- Cook Medical
